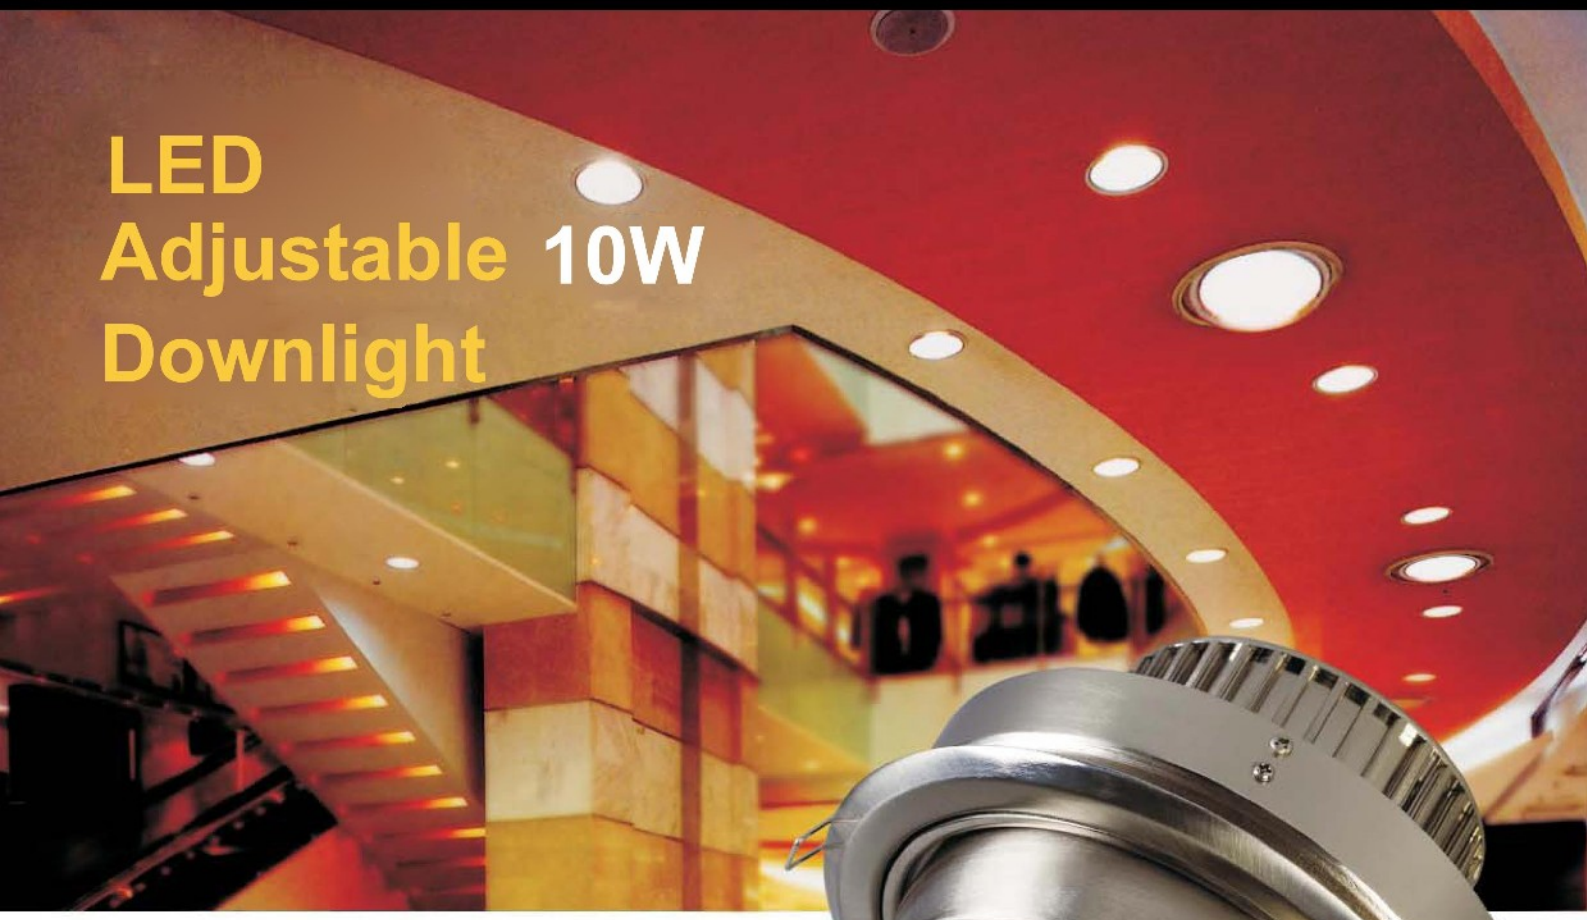
LED Adjustable 10W Downlight



This attractive 6" adjustable contemporary downlight is the perfect fixture for lighting general retail or commercial spaces where directional lighting is required. Utilizing 10x1W high power LEDs, this fixture consumes less than 15% energy comparing traditional incandescent lamps. Due to the ultra-long lifetime of LEDs, these fixtures offer a maintenance free option compared to incandescent and CFL units. Construction includes all aluminum body and mounting, powder coated for an attractive and durable finish.

New!

Technical Specification

Item NO	50574
Source	10x1W LED
Beam Angle	82.5°
Input Voltage	100-240V AC 50/60Hz
Power Consumption	13.3W
Color Temperature	warm white: 3000K ~ 4000K white: 5500K ~ 7000K cool white: 8000K ~ 10000K
Working Environment	-30°C ~ +40°C
